## BIOGRAPHY

On the road to success, there are many detours; and for Keith and Renée, the duo has embraced every single one of them. It's a route that has led the Winnipeg, Manitoba tandem to a genuine, earthy, country-pop feel on its latest album – aptly entitled Detours.

Keith Macpherson and Renée Lamoureux arrived at Detours after ten years, hundreds of gigs, three albums and captivating legions of loyal fans who have purchased thousands of the their CDs. Keith and Renée's music can also be heard in commercials for AT&T worldwide; TV shows including, *Degrassi - The Next Generation*; and in movies such as the USA Hallmark movie - *For the Love of Grace*.

Opportunities often appear at a fork in the road; and for Keith and Renée, they took a road less traveled - partnering with a humanitarian organization - Free The Children/Me To We Music. The duo has traveled to Kenya twice and Dubai to share its experiences with over 100,000 students in 150 high schools across Canada.

If the last ten years are any indication of success, look for Detours to go the distance for Keith and Renée.
